SORA is for audiobooks to listen to

OR

e-books to read on a phone/tablet

Our Digital Library is a centrally managed online eBook and eAudiobook lending library.

The collection consists of a wide range of teenage and young adult titles to suit all year groups, interests and ability levels. In addition, the library hosts collections of titles to support teacher CPD and staff or parent book clubs.

The collection currently consists of over 15,000 unique titles, with multiple copies and/or class sets of many of these, bringing the overall total to over 75,000 items. Over 3,000 titles are available for simultaneous use (including our eMagazine and Graphic Novel collections). A collection of 410 Digital Magazine titles was added to the library in 2022. Covering a wide and diverse range of subjects, the current issue and up to 2 years back issues of each title are available for simultaneous use.

New titles are being added to the collections on an ongoing basis. Mount Carmel members can access and download books from the library anytime, anywhere via the Sora app – to their PC, laptop, phone or tablet.

The collection contains eBook and eAudiobooks across 25 different European and Asian languages. There are currently over 630 titles in the collection and new titles and new languages will be added on a continual basis.

The aim is to encourage students to maintain their home language skills.

We run a Summer Reading Challenge where we encourage students to read and listen to books. This is a challenge for all JCSP schools and progress reports are shared on the school Instagram. Reading in the summer can be a great way to relax, pass the time and learn new things. The challenge is a nice way to keep in touch with your school friends and see what they are reading.
